 Everyone in the office was awesome!! They talked to me like I was an old friend. They even helped me with picking out glasses and gave me honest opinions when I asked for them. They seemed genuinely happy I was there and happy to be there themselves. They are incredibly flexible and easy to talk to about anything. I will always look forward to my office visits!!

**★★★★★** "My experiences have been great EXCEPT for tryin..." — **Pam L.** (Patient since 2016)  
 My experiences have been great EXCEPT for trying to get in for my appointment! The person checking me in could not check any slower! The only thing that had changed was my address (from a PO Box to a street address), and my insurance. I do not know what she got stuck on, but after 25 minutes I asked for my medicare cards back, and she STILL had not scanned them! This is extremely unsatisfactory, and if she's there next year when I come in and is still slow, I will take my business elsewhere.

**★★★★★** "Best eye doctor ever" — **Elise B.** (Patient since 2017)  
 My husband has been going here for 3-4 years, and he really likes her. I attended his first appointment and really liked her as well. She spent a very significant amount of time ensuring my husband had a good fit with his contacts. Even scheduled 2 follow ups to ensure they were appropriate. We NEVER feel pressured to buy her products, whether we need them or not. She took the time to explain what every test she did meant, and why she was doing it. Then she would follow up with how I did on the test. She appears very young, but let me tell you, this lady is super intelligent and very nice. I will use her until I no longer live in the area! Thanks for being the best.
