

Polycarbonate is an impact resistant lens material and meets the ANSI Z87.1-2003 standard for high impact protectors. Firmly attached sideshields are recommended for all safety eyewear to help protect against flying particles and objects.

WARRANTY

The Eye and Vision Center will replace any defective products at no charge if the following conditions occur within one year from date of purchase:

- Lens breakage (not a warranty against scratches)
- Frame breakage
- Coating failure (peeling or crazing)
- Corrosion of any frame component

Warranties apply provided that no abnormal or excessive abuse is evident. Product must be returned to The Eye and Vision Center.

If a replacement part is not available, The Eye and Vision Center will provide a new frame or new complete eyewear at the repair part price.

A limited one-year scratch warranty is offered on Anti-Reflective Coating.

All claims for scratch warranty must be returned to The Eye and Vision Center before credit or replacement can be issued. Limited to one replacement per order.

A one-year warranty is offered on Anti-Fog coating. Anti-Fog is compatible with plastic or polycarbonate only. It is not compatible with other lens materials, coatings, or tints and is not offered with AR or Extra Hard SRC.

If the eyeglass wearer is unable to adapt to their PALs, The Eye and Vision Center will replace the lenses with any multifocal lens at no charge within 60 days from date of purchase. After 60 days, replacement lenses will be charged at full price.

TERMS AND CONDITIONS

Terms: Payment at time of service or, at higher volumes, monthly invoicing Net 30. Prices subject to change without notice.
